eardrops

# What's that sound?

What does that word mean?

# Haere mai! Welcome to Eardrops!

Listen along and discover the world with us! Every day is an opportunity to find out something new. What animal makes this sound? What's that that noisy machine? There are no limits to the adventures waiting right outside. Hoake tātou! Let's go!

The Eardrops audio stories celebrate the sounds and languages of our world. Sounds of the Tuawhenua is crafted to introduce the real world sounds of the country and to offer a set of Te Reo Māori words to English speakers. Te Reo Māori is woven throughout as the characters explore and learn about all the sounds around the farm.

The Eardrops Company empowers children with fun, quality stories that 'open their ears to the world'. More at eardrops.co.nz.

# Who is Eardrop?

Eardrop is a young rabbit who wants to explore the world! Eardrop hears with innocent oversized ears. Children will laugh, sing, and learn alongside Eardrop during Sounds of the Tuawhenua.

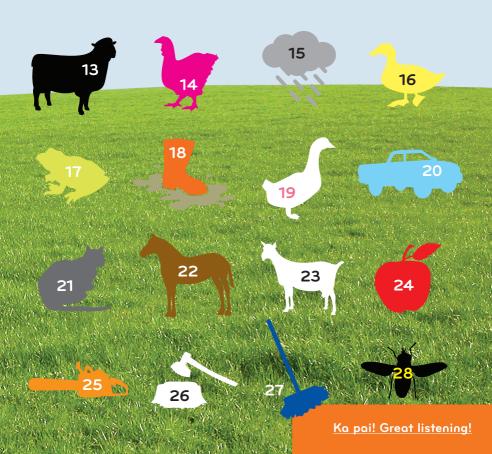

## Helping children learn with Sounds of the Tuawhenua

- <u>Boost language</u>. Listen to Sounds of the Tuawhenua together and encourage children to repeat the words they are learning, in both English and Te Reo Māori. Praise and appreciate every effort! (There is a vocabulary list on pages 6 and 7 of this booklet).
  - <u>Lift listening</u>. Eardrop includes children listening to the story by regularly asking "are you listening with me?" or "can you hear that?" Explain to children that listening is something we all need to <u>learn</u> how to do. Help children focus on each sound. Some are quiet, some are noisy! Play along with the guessing game at the end of the story too it's a fun challenge!
- <u>Spot the shapes.</u> Add a visual element by using the map in this booklet. For young children, point to the pictures as the sounds are introduced within the story. (Download more pictures at eardrops.co.nz).
  - <u>Bounce about</u>. Nurture imagination by pretending to be the sounds in the story. Do this together play equals learning!
- <u>Create moments.</u> Sounds of the Tuawhenua introduces twenty eight featured sounds. Use these to start conversations talk about the animals, machines, and events in the story. Laugh and listen together!
  - <u>Play it again</u>. Children need to be presented with a sound, word or concept many times before it is easily recognized. Play the story often. 'Learner listeners' need lots of practice.
- Belly laughs. Most of all have fun with Eardrop!

# Want to play a cool game?

Listen to Sounds of the Tuawhenua and match the sounds you hear to these shapes.
